

<p>illumination, tank maintenance, private signalization and emergency light.</p> <p>Do not use AZURELITE 2 while driving or aiming any person inside a vehicle. It may cause temporary blindness and bring risk of a fatal accident involving other vehicles and conductors.</p> <p>Do not use AZURELITE 2 with the intent to impersonate law enforcement. Although it might seem fun, cool or kinky to you, police impersonation is a crime punished by law in many countries. AZURELITE 2 was specifically designed only for corals! In any case, check your local law before using AZURELITE 2 when in doubt!</p> <p>Do not use AZURELITE 2 for night patrol or surveillance (only of your tank and tank equipments please!). Our LED is designed specifically for checking corals, not criminals!</p>	<p>Do not use AZURELITE 2 to substitute official signalization/communication lights. The strobe mode is designed only for SOS and emergency cases where the endangered person does not possess any other form of signalization device! (Do not use AZURELITE 2 for Air Traffic or Maritime traffic signalization or communication).</p> <p>WARRANTY</p> <p>ORPHEK LED LIGHTING warrants AZURELITE 2 (batteries are not under Orphek warranty) against defects in material and workmanship for one month from purchase. Defects or damages resulting from abnormal conditions, improper storage, unauthorized and improper operation, alteration, connection or installation, misuse, neglect, abuse or accident, including caused by shipping, spills of food or liquids are not covered by this warranty. Battery</p>	<p>leakage and battery expiration are also not covered by this warranty. ORPHEK LED LIGHTING disclaims any responsibility for incidental or consequential damages, especially caused by water submerging, use of any other accessory or component not provided and included in this package box, of defects and damages resulting from non compliance of the safety guidelines provided in this guide. The duration of any implied warranties are limited to the duration of the express warranty herein. Orphek LED Lighting is not liable for the loss of the use of the product, inconvenience, loss or any other damages, direct or consequential, arising out of the use or inability to use this product, or for any breach of any express or implied warranty, including the implied warranty of marketability or merchant</p>	<p>ability or fitness for a particular purpose applicable to this product.</p> <p>ORPHEK HAS CHOSEN CAREFULLY ITS PARTNERS AND RELIED IN THEIR PROFESSIONALISM TO PROVIDE THE BEST CUSTOMER SERVICE THERE IS, BUT ORPHEK WILL NOT BE RESPONSIBLE FOR MISINFORMATION RECEIVED BY CLIENTS CONCERNING ITS PRODUCTS, IF GIVEN FROM A THIRD PARTY (INCLUDING BUT NOT LIMITED TO DEALERS, LOCAL SHOPS, ONLINE SHOPS). IF THE DAMAGE RESULTED FROM THIS MISINFORMATION, CONTACT THE SALESPERSON DIRECTLY.</p> <p>PAY ATTENTION: This limited warranty applies only to the original purchaser and is not</p>	<p>transferable from the original consumer purchaser. In the event of a limited warranty claim, proof of purchase will be required. If you have purchased your AZURELITE 2 from a dealer, local shop or online shop, please contact them directly. This warranty gives you, the original purchaser, specific legal rights and you may also have other rights, which may vary from country to country, from State to State. Orphek operates a no return & no refund of products policy. Orphek will not be held responsible and it is not liable for the loss or damage of any aquarium, or of corals or any life forms in any aquarium. This limited warranty does not cover, damage to products incurred in shipping of the product (s). Orphek has chosen carefully its transportation & delivery partners, but sometimes damage may occur for many reasons. In this case you</p>	<p>should verify our shipping policies provided in our website: www.orphek.com</p> <p>AZURELITE 2 is manufactured with the specific legal purpose of coral night feeding, colors & health checking, coral illumination, tank maintenance, private signalization and emergency light. Orphek does not agree, support, assist, abet, command, facilitate, advise, encourage, furnish, sell or distribute AZURELITE 2 to be used with any other legal or illegal purposes rather than coral night feeding, colors & health checking, coral illumination, tank maintenance, private signalization and emergency light and it cannot be held responsible, liable, culpable or recognized as accomplice in any law suit of any nature if AZURELITE 2 is/was used as a principal object or accessory to commit or to attempt to commit an illegal</p>	<p>action or crime. Orphek holds no degree of culpability if AZURELITE 2 was misused or used with a different purpose (legal or illegal) than the one established by ORPHEK in the user guide. Orphek believes that all its clients are responsible to practice good common sense when using all its products, and that the user guide provided the specific purpose of the product. Orphek also predicted some misuses that might lead to danger when operating the flashlight, but it is impossible to predict and list all of them, therefore Orphek cannot be held responsible, liable, culpable or recognized as accomplice if the action perpetrated or attempt to be perpetrated was not listed in the user guide.</p>		<h2>Azurelite 2</h2>

<p>SPECIFICATIONS</p> <p>Type: Rechargeable Flashlight Voltage: 4.5V Light Source: Cree XPE 3W led + COB 3W LED Lumens: Cree XPE Blue LED 24lm / COB LED 115lm Led Type: Blue & White Length: 5.83"/148mm Diameter: 1.50"/38mm Weight: 142g Beam Optics: ZOOM Beam Distance High: ZOOM Switch: Push Button Body Material: Aluminum alloy Surface Treatment: Anodic Oxidation Body Color: Silver Running time: Battery running time Certificates: CE RoHS</p> <p>COMPATIBLE BATTERY TYPES</p> <p>Alkaline AAA batteries Lithium AAA batteries NiMH rechargeable AAA batteries</p> <p>Batteries are not included!</p>	<p>HOW DOES MY AZURELITE 2 LOOK LIKE?</p> 	<p>YOUR AZURELITE 2 COMES WITH COOL NEW FEATURES!</p> <p>Hidden Lantern: COB sidelight</p> <p>Magnetic/Switch Cap: to fix your AZURELITE 2 so you can have your both hands free to work on your tank!</p> <p>5 different modes: High/medium/low brightness; SOS (Strobe); COB sidelight</p> <p>WHAT CAN I DO WITH MY AZURELITE 2?</p> <p>Low Output: Coral feeding</p> <p>Medium Output: Coral feeding</p> <p>High Output: Night Viewing & Inspection</p> <p>Strobe Output (SOS): To use for signalization when out there checking corals in Nature</p> <p>Hidden Lantern: Indoor or outdoor activities such as tank or sump repairing (or any repairing in the dark), emergency night light, extra light for photography, surveillance of your tank and equipments.</p> <p>Magnetic Switch Cap: to fix your AZURELITE 2 and have your both hands free!</p>	<p>HOW DO I START?</p> <p>Unscrew (counter clockwise) the battery cap of the flashlight from the battery tube. Insert 3 of your chosen AAA batteries into the battery cartridge. Insert the battery cartridge into the battery tube and reinstall the battery tube switch cap with push button switch facing out/up.</p> <p>HOW TO OPERATE YOUR AZURELITE 2</p> <p>The AZURELITE 2 will turn on with the push button switch at the top of the flashlight. (Check diagram). To switch modes gently push the button. If you press the button on and then off and one more time on you will also be able to switch modes. Slide the head of your AZURELITE 2 forward of backwards to adjust the focus or to access the lateral hidden CB sidelight.</p> <p>HOW DO I FEED MY CORALS USING AZURELITE 2?</p> <p>The most convenient time to</p>	<p>feed coral is after all lights in the aquarium are off. Most coral feeding is triggered by night and the majority of corals opens their polyps and extends their tentacles and actively feed. To do so, simply illuminate the desired area with your AZURELITE 2, then begin to direct feed. Please check the feeding instructions of your food supplier before feeding your corals.</p> <p>BE SMART! WARNING</p> <p>Violation of the instructions may cause serious injury or death! Place it far from the reach of children and animals. Be careful that they do not swallow disassemble parts of the flashlight. This could cause asphyxiation or suffocation resulting in serious injury or death. Avoid direct eye & skin exposure. (Intense light may cause blindness or severe eye & skin diseases.) Please check more info about LEDs</p>	<p>and eye contact before using your AZURELITE 2. Make sure that no sharp-edged items come into contact with the battery or the flashlight itself. Keep your AZURELITE 2 stored in its box. Improper storage may cause damage to your flashlight.</p> <p>ELECTRICAL HAZARD</p> <p>Reduce electrical shock risk: AZURELITE 2 is not waterproof. It should not be submerged in water or any other liquid!</p> <p>BATTERY HAZARD</p> <p>Do not start using AZURELITE 2 before checking for battery use & recharge safety & disposal guides. Check for battery brand's instructions first. Do not dispose AZURELITE 2 and the batteries before checking the applicable laws for dispose of batteries in your country. Do not use batteries that have been wet; batteries from a flooded flashlight</p>	<p>should be discarded. The water could create an internal short circuit at some later date causing a potential explosion. The normal evolution of all batteries is emitting hydrogen gas. This gas must be absorbed or allowed to escape to prevent ignition of the entrapped hydrogen/air mixture. We suggest removal of the batteries during long periods of storage to prevent trapping any hydrogen/air mixture.</p> <p>EPILEPSY & PHOTOSENSITIVITY</p> <p>Exposure to flashing lights at certain intensities or to certain visual patterns such as strobe pattern can trigger seizures. This condition is known as photosensitive epilepsy. Many people are unaware that they are sensitive to flickering lights or to certain kinds of patterns until they have a seizure. Check with your doctor if you are</p>	<p>concerned about flashing lights triggering seizures. If you have Epilepsy or any other known photosensitivity related disease or symptom DO NOT USE AZURELITE 2! Discontinue the use of AZURELITE 2 & contact your doctor if you are facing confusion, photophobia, headaches, migraines, nausea, burning or excessive tearing of your eyes, eye/was sensitivity or intolerance or any kind of abnormal sensation or discomfort included but not limited here.</p> <p>WHAT NOT TO DO WITH YOU AZURELITE 2!</p> <p>Do not use any different set of batteries than the ones indicated in this guide. Do not change batteries with wet hands. Do not disassemble the flashlight. Do not try to modify the device by yourself. Do not place your AZURELITE 2 in a</p>	<p>microwave, oven or any other source of heat or fire. Do not expose your AZURELITE 2 to harsh chemicals (such as alcohol, benzene, thinners, etc...), or detergents to clean your flashlight. This could cause damage to the flashlight and may endanger health and life. Do not drop your AZURELITE 2, strike or shake it severely. It may harm the internal circuits. Do not use your AZURELITE 2 in high explosive areas. Do not dive in water with AZURELITE 2. Do not immerse your AZURELITE 2 in water, liquid or gel.</p> <p>Non-Approved Applications ●</p> <p>Do not use your AZURELITE 2 for any other application besides the ones specifically determine in this guide, which is: coral night feeding, colors & health checking, coral</p>
